Acronyms/Definitions

Hospital SUD Response Program - comprehensive approaches to SUD for individuals who present to the hospital system that can include screening, referral to treatment, MOUD induction, providing naloxone, and a Peer Recovery Support Specialist consult.

Harm Reduction Program (HRP) - refers to the use of practical strategies and ideas aimed at reducing the negative consequences associated with drug use.

Law Enforcement Assisted Diversion (LEAD) - a pre-booking diversion program aimed at diverting low level criminal offenders away from incarceration and into treatment so that they can receive definitive care for their underlying addiction.

Medication-Assisted Treatment/Medications for Opioid Use Disorders (MAT/MOUD) - refers to the three U.S. Food and Drug Administration approved medications used to treat opioid use disorder: Methadone, Buprenorphine, and Naltrexone.

Quick Response Team (QRT) - teams who contact people within 24 to 72 hours of an overdose to connect them to treatment and other services.

Regional Partnership Grant (RPG) - integration of programs and services designed to increase the well-being, improve the permanency, and enhance the safety of children who are in, or at-risk of, out-of-home placements as the result of a parent or caregiver's SUD.

Substance Use Disorder (SUD) - the recurrent use of alcohol or drugs causing clinically significant impairment, including health problems, disability, and failure to meet major responsibilities at work, school, or home.
